

Hello, Year 6! Here is some English and maths work for today...

Maths:

You have some tasks waiting for you on [maths.co.uk](https://www.maths.co.uk)

All of you know your logins, but if you have forgotten please send us an email.

Give them a try. Once you are finished, spend some time going through the ones you got correct (well done!!) and have a look at the ones that you may need a bit of support with. Check out [Year 6 Maths - BBC Bitesize](https://www.bbc.com/bitesize/year6/maths) if there's a particular area you need to focus on.

English:

I am sending you some creative writing. Please complete this and return it to me so I can read your amazing stories! If you choose to type them, that's ok, too!

I'm also setting you some reading comprehension on the First World War. It covers lots of topics we have already covered in class so should be familiar to you. There are 3 levels, so choose the right level for you. The answers are also attached – I know I can trust you to give it a go then check your answers!

Have a great day – we will miss you here in school.

Mrs Indge and the Year 6 Team 😊
